## PRESIDENT'S REPORT

### SEPTEMBER 2026

Labor Day heralds the coming of the Fall season and unfortunately, the closing of the Pool, which was very well attended this year. As you know, we try to keep the pool open til the end of September but unsettled weather and the need for attendants to sit during hours of operation, curtail hours the pool may be open. The pool will officially close on Tuesday the 22<sup>nd</sup>.

We have had a problem this summer with the upper lake on the Hovsons side at the dead end. The lake is only inches deep there and we have had a problem with algae and growth that has defied all the different chemicals put down by Princeton Hydro. The way the lake is shifting looks like it may become part of the bank void of water. The rest of the lakes upper and lower are doing quite well.

As you all know we had our election in June and have several new Trustees. With the summer hiatus most residents have not had the opportunity to meet our new board. We are having a meeting Monday September Fourteenth at 6pm. Come on out. If you have any questions, suggestions etc, we'd love to hear from you, our residents.

We are still trying to slow down the traffic through Holiday City. The speed limit is **Twenty-five (25) MPH** throughout the community and yet I still see some of our residents barreling through our streets like they are on a race track and yes, they are our residents, not the outsiders using us as a cut through. If this continues I will ask for a police presence in here before someone gets killed.

Wishing all a happy and safe holiday.

# Perfect Potato Soup

Prep Time: 30 mins | Cook Time: 50 mins | Total Time: 1 hr 20 mins  
 Servings: 6 | Yield: 6 servings

## Ingredients

- 6 russet potatoes, peeled and cut into 1/2-inch cubes
- 5 slices bacon, cut into 1/2-inch pieces
- 3 tablespoons butter
- 2 stalks celery, cut into 1/4-inch slices
- 1/2 large onion, diced small
- 20 baby carrots, cut into 1/4-inch pieces
- 2 teaspoons kosher salt, divided
- 1 1/2 teaspoons freshly ground black pepper, divided
- 3 tablespoons all-purpose flour
- 2 cups half-and-half
- 1 1/2 cups chicken broth
- 1/4 teaspoon dried thyme
- 1/8 teaspoon cayenne pepper
- 1 dash ground nutmeg
- 4 green onions, finely sliced
- 1 dash paprika, or to taste

## Directions

1. Place potatoes into a large pot and cover with water; bring to a boil. Cook until fork-tender, about 10 minutes. Drain.
2. Place bacon in a large saucepan and cook over medium-high heat, turning occasionally, until crispy, about 8 minutes. Drain bacon slices on paper towels. Pour out bacon grease.
3. Melt butter in the saucepan over medium heat, scraping the bottom of the pan with a flat-edged wooden spoon. Add celery, onion, carrots, 1 teaspoon salt, and 1/2 teaspoon pepper; cook and stir until tender, about 10 minutes. Sprinkle in flour; cook and stir for 2 minutes.
4. Pour half-and-half and chicken broth into the saucepan. Add potatoes, 1 teaspoon salt, 1/2 teaspoon pepper, thyme, cayenne pepper, and nutmeg. Bring to a boil, stirring frequently. Stir in bacon pieces. Reduce heat and simmer, stirring often, until flavors combine, about 10 minutes.
5. Ladle into serving bowls. Garnish with 1/2 teaspoon pepper, green onions, and paprika.

# HOW TO MANAGE BLOOD SUGAR

## ✓ UNDERSTAND BLOOD GLUCOSE (Blood Sugar)

Health screenings with your doctor often include measuring how much glucose is in your blood. Healthy blood glucose is one sign that your brain, kidneys, and heart are healthy. If blood glucose is too low, you may feel tired or dizzy but feel better after you eat. High blood glucose may be related to things like dehydration or infection. But if blood glucose is too high over time, it may mean you have pre-diabetes or diabetes.

**GLUCOSE** When we eat food, our body makes glucose, a type of sugar. It travels in the blood to places in the body where energy is needed. Other parts of the body need insulin to carry glucose into cells to be used as energy. Healthy people can maintain healthy blood glucose by eating smart, being physically active, managing stress, and getting healthy sleep.

*In Type 2 diabetes, glucose builds up in the blood instead of going into cells because:*

- ↓ The body develops "insulin resistance" and can't use its insulin efficiently.
- ↓ The pancreas slowly loses its ability to produce insulin.

The result can be a high blood sugar level.

## ✓ TRACK LEVELS

Health care professionals can take blood sugar readings. If you are living with Type 2 diabetes, you may need to monitor your blood sugar level more often.

If you have diabetes visit [American Heart Association | Diabetes](https://www.heart.org/diabetes).

| Fasting Blood Glucose | Diagnosis                              | What It Means                                 |
|-----------------------|----------------------------------------|-----------------------------------------------|
| Lower than 100 mg/dL  | Normal                                 | Healthy range                                 |
| 100 to 125 mg/dL      | Prediabetes (impaired fasting glucose) | At increased risk of developing diabetes.     |
| 126 mg/dL or higher   | Diabetes Mellitus (Type 2 diabetes)    | At increased risk of heart disease or stroke. |

## TIPS FOR SUCCESS

### EAT SMART

Eat meals with lots of vegetables, fruits, whole grains, beans, nuts, and lean proteins like fish and seafood. Drink plenty of water. Water can help maintain healthy blood sugar levels. Limit sugary foods and drinks, red meats, processed meats, salty snacks, and foods that are highly processed.

### MOVE MORE

Exercise can help lower your risk of developing Type 2 diabetes. It can also help you manage diabetes if you are living with it. Exercise also improves your energy, mood, and clears your mind.

### MANAGE WEIGHT

Stay at a healthy weight to help prevent, delay or manage diabetes. Speak to a health care professional to understand what is a healthy weight for you.

### NO NICOTINE

Avoid smoking, vaping, nicotine pouches or using tobacco. It makes it harder to manage prediabetes and diabetes. Even being around secondhand smoke can cause problems.
